BRIEFING NOTE FOR DCI

SUBJECT: Reconnaissance Coverage of Trinidad Target Area

BRASS KNOB's have passed over the Trinidad area, the latest flight having occurred on 14 November. To date they have not revealed any information to substantiate the French report. An additional BRASS KNOB flight was scheduled over this area for today, but has been postponed due to bad weather. At the present time it is not considered practical to schedule ██████████ over this area because of the inability to pinpoint the locations requiring coverage.
